High Bright Touchscreen

## Touchscreen – LCD screen, 12.1 inch High Bright

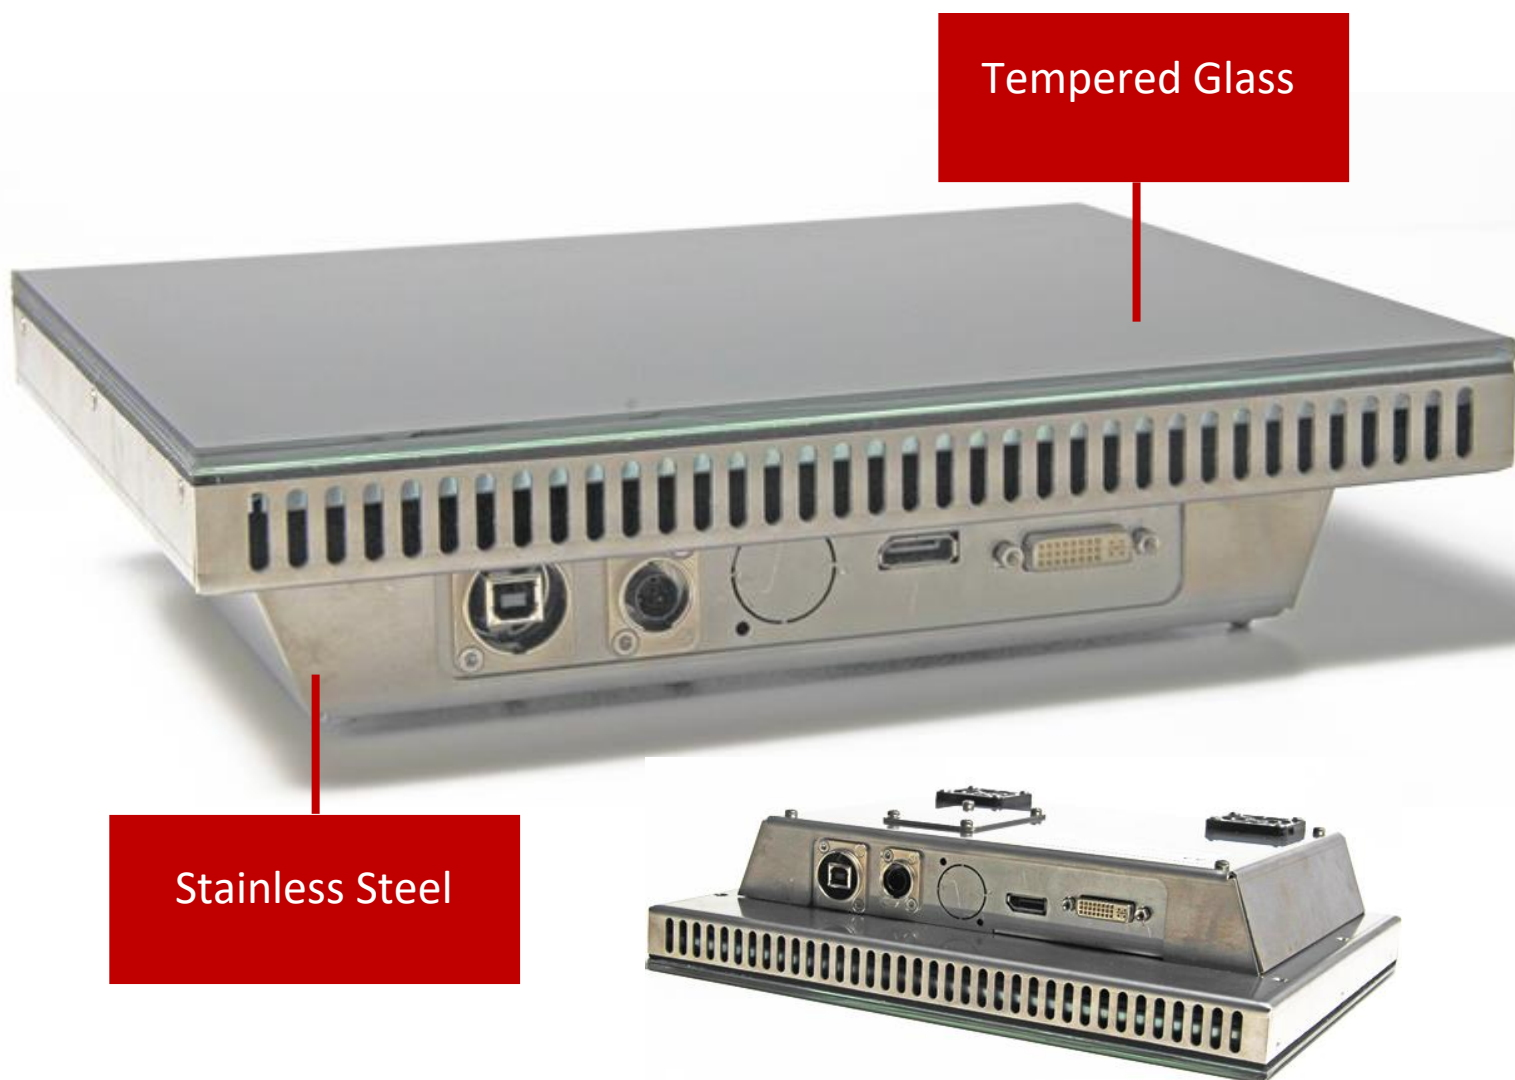

The NDF 12.1 inch touchscreen is suitable for a wide variety of applications, both indoor and outdoor as with:

1. Ticket Vending Equipment
2. Outdoor en indoor point of sale
3. Outdoor and Indoor registration systems
4. Industrial applications

The high bright touchscreen can be built in splash-proof, which means that the screen can also be applied in damp areas and outdoors. The touch is also very reliable and can also be used with gloves. The hardened and layered glass makes the touch LCD screen vandal resistant.

The built-in infrared filter ensures that the LCD is protected from bright sunlight. This considerably increases the reliability of this touchscreen.

The plugs are blocked.

## Technical Specifications

Active Area (mm)	245,76 x 184,32 mm (BxH)
Number of Dots	1024 (B) x 768 (H)
Pixel Pitch (mm)	0.240 x 0.240 ( BxH )
Color Pixel Arrangement	RGB vertical stripe
Display Mode	Normally white
Number of Color	16.7M (8 bit/color)
Luminance (cd/m <sup>2</sup> )	1100 Cd
Viewing Angle (CR≥10)	-80~80° (B), -80~80° (H)
Backlight Unit	LED, edge light
Input Voltage	12 VDC
Power	15 W
Input video	DVI-I / Video port
Input touch	USB
